PROFESSIONAL SUMMARY

Frontend Developer with 3 years of experience building React.js applications, dashboards, and internal business tools. Proficient in JavaScript, REST API integration, Plotly.js, HTML, and CSS. Experienced in developing responsive interfaces, automating reporting workflows, building reusable components, and improving application performance and usability.

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, React Hooks, React-Router, Redux, Context API, jQuery
- **Data & API Integration:** REST APIs, Axios, AJAX, JSON, Async Data Handling
- **Data Visualization Libraries:** Plotly.js, React-Plotly.js
- **UI Libraries:** Bootstrap, React-Bootstrap, Material UI, Tailwind CSS, Responsive Design
- **Tools:** Git, GitHub (Version Control System), Vite
- **Concepts:** Responsive Design, State Management, API Integration, Object-Oriented Programming, Performance Optimization, Error Handling, Debugging

PROFESSIONAL EXPERIENCE

Frontend Developer | 72 Dragons, Hong Kong (Remote)

March 2024 - July 2026

Project: Social Media Tracking Application | HTML, CSS, JavaScript, Plotly.js, jQuery, AJAX

- Developed a centralized **Social Media Tracking application** with 28+ interactive dashboards for monitoring team-specific live performance, KPIs, and social media metrics.
- Connected **Django backend API** with **Plotly.js** charts and tables using **AJAX**, automating daily updates and saving 30+ hours of manual reporting each month.
- Engineered interactive popups using **JavaScript** and **jQuery**, triggered by graph and table clicks with synchronized switching across multi-graph containers, and built single-date and date-range filtering with 5-second and 10-second interval toggles, improving data accessibility by 70%.
- Simplified application usability with **dropdown-based** page selection and responsive **loading indicators**, reducing navigation time by up to 30%.
- Created a persistent **graph mini-player** with expandable view, graph traversal controls, auto-hide behavior, and **localStorage** persistence, reducing context switching by 60%.

Project: Sales Dashboard | React.js, CSS, Bootstrap, Axios, React-Plotly.js, React-Router

- Architected a secure **Sales Dashboard** featuring 10+ interactive Plotly visualizations (graphs) integrated with **Django backend data** to analyze sales and client records across dedicated sales, client management, and contract tracking pages.
- Used role-based authorization with **React-based UI** access control and **Django session-based** login permission validation, ensuring 100% secure authentication for internal users and preventing unauthorized access.
- Implemented 4+ validated data entry forms using **React.js**, **Axios**, and **REST APIs integration** with client-side validation, confirmation dialogs, searchable tables, pagination, and CSV export.
- Integrated **CRUD functionality** via backend APIs to manage 100+ records with real-time database-to-frontend synchronization, custom dropdown value creation, and duplicate-entry prevention.
- Managed a secure dashboard with 100% **permission-based control**, restricting visibility of sensitive company payment and employee data, private pages, and CRUD operations to authorized CEO and Manager users only.

React.js Developer | Esolz Technologies Pvt. Ltd, Kolkata, West Bengal

November 2022 - May 2023

Project: Admin Dashboard | React.js, CSS, Axios, React-Router

- Constructed the **Admin Dashboard** User Panel, enhancing **UX** with edit/delete buttons, modals, accordions, and draggable columns, cutting task time by 3 minutes per session.
- Revamped website routing with **React-Router** that facilitated seamless page transitions across 5 different application sections; refining the code structure resulted in a smoother user experience and faster load times.
- Pioneered **React.js** single-page applications by designing and testing 5+ **RESTful APIs** to streamline backend logic and data flow.

PROJECTS

Portfolio | React.js, Material-UI, Framer-Motion, Vite | [View Project](#)

- A responsive React.js portfolio website with Material-UI, dark/light theme support, smooth animations, reusable components, and performance enhancements, effectively showcasing projects, skills, and professional experience with 100% mobile responsiveness.

Food Recipe Finder | React.js, TheMealDB API, Tailwind CSS, Axios, React-Router | [View Project](#)

- A responsive Food Recipe Finder application using React.js with recipe search using the TheMealDB API for real-time data, handling 100+ recipes.

Ecommerce Shopping Cart | React.js, CSS, Vite, JSON-Server Fake API, Redux, Axios, React-Router | [View Project](#)

- A responsive e-commerce application using React.js, Redux, and JSON Server, featuring 50+ product listings, shopping cart, quantity management, wishlist, and state management.

EDUCATION

- Master of Computer Applications, University of Engineering & Management, Kolkata - CGPA: 9.41 (2019-2022)
- Bachelor of Science in Computer Science, St. Xavier's College, Burdwan - 69.71% (2015-2018)
